WORK EXPERIENCE

Agvance Ltd, Business Analytics Project Consultant 01/2026 | Dublin, Ireland.

Academic Industry Project (Part-Time) | Ireland

Multi-Platform Sales Analytics & Dashboarding; Conducting end-to-end business analysis on sales data across multiple platforms to uncover trends, evaluate performance, and deliver dashboards that support data-driven decision-making.

- Collected, cleaned, and consolidated sales data from multiple platforms for unified analysis
- Performed exploratory data analysis to identify trends, patterns, and performance gaps
- Designed and developed interactive dashboards to visualise key business metrics
- Translated business requirements into analytical outputs and actionable insights
- Communicated findings through structured reports and data visualisations for stakeholders

IIBA Ireland, Business Analyst Volunteer 03/2026 | Dublin, Ireland

Insight to Action Analytics Programme (Part-Time, Remote) | Dublin, Ireland

Member Value Realisation Analytics ; Contributing to a strategic analytics initiative focused on understanding how member benefits are delivered and experienced, translating qualitative insights into structured analytical outputs for leadership decision-making.

- Reviewed and structured core member benefit propositions across learning, events, and community engagement
- Mapped organisational benefits to observable value signals to support future measurement frameworks
- Identified gaps in data visibility where member value is implicit or not currently tracked
- Produced concise insight summaries highlighting areas of strong and weak value visibility
- Documented assumptions, data limitations, and exploratory findings for future analytics phases
