WORK EXPERIENCE

Analyst , <i>Cleannn (Bangkok-based Startup)</i> Business Analyst (Full-Time) [01/25 – 08/25] Business Analyst Intern (Part-Time) [08/24 – 01/25] Project: Cross-Functional Business & Product Support Project Description: Worked with a Bangkok-based early-stage consumer services startup during its foundational phase. Supported cross-functional operations including product development, process automation, and marketing—executed remotely from Delhi. Responsibilities: - Conducted market research and translated insights into structured business recommendations - Created and maintained internal client databases for outreach and retention - Contributed to the development of a company-wide expense dashboard - Used Airtable, Sleek flow, and Postman for workflow automation and API testing - Participated in product and marketing planning across departments - Took ownership of internal processes and helped onboard newer team members	08/2024 – 08/2025 Gurgaon, India
SDE Intern , NDTV Worldwide Limited, New Delhi Project: Channel Data Analysis Application Project Description: Engineered a Channel Data Analysis Application using Python and Streamlit. The platform provided a comprehensive overview of weekly live channel data, including timeslot-based genre analysis, show rankings by viewership, and overall channel performance metrics. Responsibilities: Conducted in-depth analysis of genre preferences for allocated timeslots	03/2024 – 06/2024 New Delhi

- Structured viewership data to highlight top-performing shows and channels
- Designed hierarchical data visualization to assist internal stakeholders in decision-making

Freelance Video Editor

2020 – 2024

- Created content for clients across fitness (CrossFit), education (Institute of Commerce), and fashion/music niches
- Produced Instagram reels, promotional content, and educational videos while ensuring alignment with client branding and delivery standards
